AIR CAMPERVAN

TIME TO BREAK FREE

Introducing the Air - an expertly crafted Ford Transit Custom Campervan ready for all the times of your life. Whether at home or away, your new Air offers everyday comfort and practicality, plus all the benefits of a motorhome.

Dream, Discover & Explore

It's time to break free from the monotonous everyday and discover a world of new adventures. The Air by Auto-Sleepers is a brand new campervan built on the high specification Ford Transit Custom Chassis. Inside a versatile and functional touring layout meets advanced driving technology. Let nothing stop you.

Travel Seats

Max Berth

FORD 170PS ENGINE

Power without compromise

The Air is powered by the latest high-performance Ford EcoBlue diesel engine. Powerful, clean and refined, it builds on the industry-leading performance and technology of Ford's award-winning EcoBoost petrol engines. Both manual and automatic gearbox options are available.

Key technologies include:

- Start-Stop system
- Ford Smart Regenerative Charging
- Gearshift Indicator light – to aid economical driving
- Acceleration Control – unique engine calibration helps to reduce fuel consumption when the vehicle is driven unladen (option)
- Ford Battery Management System – improves battery life, fuel consumption and ensures ready-to-go reliability
- Selective Catalytic Reduction (SCR) system - uses AdBlue® to convert NOx emissions in the exhaust gas into nitrogen and water
- Ford Easy Fuel capless refuelling system helps avoid accidentally filling up with the wrong fuel

390 Nm

170 PS

From
151 g/km*

Powerful

2.0L Ford EcoBlue 170 PS

The Ford EcoBlue 170 PS (125 kW) diesel engine develops 390 Nm of torque, making it the ideal choice for moving heavy loads or if regularly towing.

ULTIMATE DRIVING COMFORT & PRACTICALITY

When it's time to hit the road on your next tour, a day at the beach or pick up the kids from school the Air camper van will get you there in comfort and style.

The Air comes with Ford's latest driving technology for a truly enjoyable and safe driving experience as standard.

Ford EcoBlue 170PS Engine

Powerful, clean and refined, Air campervans feature Ford's industry-leading engines. Both manual and automatic gearbox options are available.

ISOFIX Mounting Points

ISOFIX mounting brackets in the rear Reimo sliding track travel seats allow for the quick installation and easy removal of children's travel seats.

Intelligent Adaptive Cruise Control⁽²⁾

Set your desired speed and Adaptive Cruise Control maintains a pre-set distance from the vehicle in front.

Parking Distance Sensors

Front and rear parking distance sensors provide an audible warning to help you judge parking distances.

Enhanced Active Park Assist

Take the anxiety out of parallel parking. Once the system locates a suitable parking space, you shift, accelerate and brake while the system does the steering. It's that simple.

Halogen projector headlights with LED daytime running lights and front fog lights

The Air's lighting technology adds one more layer of safety on the road by helping you maintain greater visibility when driving in various driving situations.

Multi-functional display screen with sat-nav and rear-view camera

The touchscreen display sat-nav function provides you with live traffic* information to help you avoid problem areas. Select reverse and the view to the rear of the vehicle is displayed.

SelectShift automatic transmission

Six-speed automatic transmission delivers a smooth, relaxing driving experience, especially in busy stop-start traffic. Change gear manually if you prefer, using the facia-mounted gearshift, or lockout gears in more challenging driving conditions, e.g. on slippery surfaces or steep gradients. (Option)

¹Uses sensors. ²Driver Assistance feature.

Note Cameras only operate at speeds under 6mph.

*Live Traffic access is free for the first 2 years allowing the purchase registration of a new Ford featuring SYNC 3 with navigation; thereafter there is an annual licence fee.

Note Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

FOR EVERYDAY VERSATILITY

The expert design team at Auto-Sleepers have built the Air as a multi-functional vehicle perfect for all-year round use. Whether you're off on holiday or doing your weekly big-shop the air camper van is right there with you.

Rear Tailgate

The rear tailgate allows for easy access to the rear of the vehicle making loading the Air simple and straightforward.

Charge On The Go

To help keep your mobile devices charged while you're on the move, the Air has two USB sockets located behind the handbrake housing, plus two more at the rear of the vehicle alongside wireless charger.

ASSISTING YOU ON YOUR JOURNEY

Driver Assistance technology that helps you to take action.

Combining information from a forward-facing camera and radar technology, the Auto-Sleepers Air can help in various driving situations. From Pre-Collision Assist⁰²⁾ (option) that can alert you to a potential collision, to Lane-Keeping Alert⁰²⁾ (option) that warns you if you stray from your lane, the Air is equipped to lend you a helping hand.

Pre-Collision Assist⁰²⁾

Uses radar and a camera to keep a watchful eye on the road ahead. The system monitors your proximity to other vehicles and pedestrians – even in the dark, when illuminated by the vehicle's headlights – and can alert you to a potential collision. Active Braking⁰²⁾ pre-charges the braking system and can automatically apply the brakes to help mitigate the effect of any impact.

Blind Spot Information System⁰²⁾

As another vehicle – a car, van or lorry – enters your blind spot whilst travelling, the system is designed to alert you with a warning light clearly displayed in the corresponding door mirror. Designed to warn you if the system detects driving behaviour that indicates a drop in alertness levels. (Standard with Lane-Keeping Alert)

Torque Vectoring Control

Torque Vectoring Control reacts to the road surface 100 times per second (that's 33 times faster than the blink of an eye). Using this information, it balances the amount of power delivered to each of the driven wheels. This maximises grip and sharpens handling, helping you around corners and over undulations in the road.(Standard)

Lane-Keeping Alert⁰²⁾

Can recognise when you approach lanemarkings without using the indicator and alert you with vibrations through the steering wheel.

Driver Alert⁰²⁾

Designed to warn you if the system detects driving behaviour that indicates a drop in alertness levels. (Standard with Lane-Keeping Alert)

Cross Traffic Alert⁰²⁾

Cross Traffic Alert scans left and right as you reverse from a perpendicular parking space. If amoving vehicle or other hazard is detected, the system will alert you with visual and audible warnings. Part of the Blind Spot Information System (option).

⁰Uses sensors. ²)Driver Assistance feature.

Please note: Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle.

¹)Speed limit may vary according to road and vehicle size. Driver is responsible for adhering to the speed limit at all times.

^{*}Operates at speeds over 40 mph (65 km/h) on multi-lane roads with clearly visible lane markings and following a vehicle crash event involving an airbag deployment or fuel pump shut off. The feature operates in more than 40 European countries and regions.

SAFETY SYSTEMS

SideWind Stabilisation^{Ø1)}

Helps the driver to stay in lane in strong, gusty conditions by using the ESC system to sense when the vehicle is being affected by crosswinds.

Traction Control¹⁾

Eliminates excessive wheelspin and provides the best possible grip, performance and stability, when you need it most. The system constantly monitors and adjusts the power delivered to the vehicle's individual wheels ensuring maximum contact and grip when you're accelerating. (Standard)

Emergency Brake Assist^{Ø1)}

Designed to recognise an emergency braking situation and increase the pressure within the braking system to provide extra stopping power. (Standard)

Electronic Stability Control (ESC)^{Ø1)}

Designed to help you maintain control in extreme driving conditions. It senses when you are deviating from your chosen line and aims to keep you on track by automatically regulating braking and engine output. (Standard)

Trailer Sway Control^{Ø1)}

Designed to detect when trailer sway occurs and to help counteract it to bring the trailer under control. (Standard, but activated with optional Ford trailer tow attachment)

Hill Start Assist^{Ø2)}

Designed to temporarily prevent you from rolling down a slope when you move your foot from the brake pedal to the accelerator pedal. It works in forward and reverse gears. (Standard)

ØUses sensors.

1)Safety feature.

2)Driver assistance feature.

Traffic Sign Recognition

Designed to warn you if the system detects driving behaviour that indicates a drop in alertness levels. Initially, a warning icon is displayed in the instrument cluster, followed by a warning chime if driving alertness further declines. (Standard with Lane-Keeping Alert)

COMPACT DIMENSIONS, GREAT POSSIBILITIES

Whether you're looking to live an adventurous nomadic lifestyle or simply taking the family for a BBQ at the beach, the team at Auto-Sleepers have designed the Air for all possibilities. On arrival to your destination the spacious interior can quickly convert to a fully equipped living area or slide the Reimo sliding track travel seats forward and take advantage of the vast industrial sized storage space.

Reimo Sliding Floor Track System

Up to three passengers can travel securely in the M1-tested rear bench seat, complete with headrests, outer seat armrest and two ISOFIX child seat attachments. At night, the seat can be converted in moments to create a comfortable double bed.

Dometic 972 Portable Toilet

A portable and convenient lightweight toilet that is perfect for smaller vehicles and tents due to the unique space-saving design. The push-button technology makes it easy to use and will always ensure a powerful and hygienic flush with less pump and less mess. The toilet has a waste holding tank capacity of 9.8 litres.

Dometic Blind & Flyscreen in Living Area

The duo roller blind above the kitchen area window consists of a spring loaded insect screen and a blackout blind. The cassette blinds are fully adjustable and can be positioned a range of heights.

BON APPÉTIT

A fully equipped kitchen in the living area of the camper van provides you with plenty of space for cooking and for storing cans, bottles and packets. The area includes a dual burner gas hob, sink and tap, and all the work space you need to prepare a meal.

2 Burner Hob & Sink

Fully equipped cooking facilities include a flexible Dometic 2 burner hob, sink separate oven and grill.

Mini-Grill

The stylish stainless steel Dometic mini grill with piezo ignition provides even greater cooking options.

Fridge-Freezer

Keep your food fresh with the refrigerator with freezer compartment.

Practical Storage for all your cooking equipment

Store all your essential cooking equipment and ingredients in the various storage lockers and the pull-out sliding cutlery drawer.

Off The
Grid?

No Problem

TIME TO UNWIND

Raise the pop-up roof, rollout the Thule omnistor awning and take some time to chill out and relax. The Air has everything you need to make the most of your time away whether your pitched up at a camp site or exploring the wilderness whilst wild camping.

Thule Side Mounted Canopy with Integrated Awning Light

Enjoy al-fresco dining and lounging outside with added protection from the sun's UV rays.

60W Solar Panel & 60Ah Lithium Battery

Be more self-sufficient and save money on your next holiday thanks to the included Solar Panel.

Webasto Air Top 2000 STC - 2kW Diesel Heater

This compact and economical heater which offers optimised fuel efficiency, a range of operation modes and unsurpassed safety standards.

Underslung LPG Tank & BBQ Point

15 litre underfloor mounted LPG gas tank installed, offering hassle free practicality with numerous benefits.

Thule Slide Out Entrance Step

The Air's slide-out step allows you to easily and safely enter and exit the vehicle.

Underslung Insulated 40L Fresh & 40L Waste-Water Tanks

The Air is fitted with space saving underslung fresh and waste water tanks.

TIME FOR A GREAT NIGHT'S SLEEP

When you're in need of a rest at the end of the day, the Air's living area transforms into a commodious evening sanctuary, perfect for relaxing with a book or catching 40 winks. Thanks to the gas-assisted struts, the tilt roof can be easily raised for additional space and the top drop down creates an additional sleeping area. Up to four people can sleep in the Air – two on the roof bed and two on the easy-to-convert rear bench seat.

Convertible rear bench seat

At night, the seat can be converted in moments to create a comfortable double bed

High-level comfort

When the roof is raised, the high level sprung double bed offers a new dimension in comfort.

VOGUE SLATE

SEAT BELT SAFETY

Seat belts for the front cab seats in motorhomes have always been installed by the base vehicle manufacturer since the law required them to do so and wearing them is a legal requirement whenever the vehicle is being driven.

However, seat belts in the rear of a motorhome are more complicated; where a designated travelling seat is available it must be used, however, where

there isn't one it's not illegal to travel in the rear without wearing one at present, although this could well change in the future.

In the interests of everyone's safety and peace of mind, Auto-Sleepers always recommend when travelling in the rear of a motorhome, it should be in a designated travelling seat with the three point seat-belts in use. Please note that adding optional

seatbelts reduces vehicle payload by 40kg.

Look out for the red seat-belt symbol next to the layout to indicate the availability of designated rear travel seats which have been tested and approved as fully compliant with European whole vehicle type approval for your total safety and peace of mind.

Situation	Front Seat	Rear Seat	Responsibility
Driver	Seat belt must be worn if fitted	-	Driver
Child under 3 years of age	Seat belt must be worn if fitted	Correct child restraint must be used	Driver
Child from 3rd birthday up to 135cm in height or 12 th birthday, whichever they reach first.	Correct child restraint must be used	Correct child restraint must be used where seat belts are fitted. Must use adult belt in rear seat if correct child restraint is not available.	Driver
Child 12 or 13 years of age or over 135cm in height	Seat belt must be worn if fitted	Seat belt must be worn if fitted	Driver
Adult passengers	Seat belt must be worn if fitted	Seat belt must be worn if fitted	Passenger

SERVICE YOU CAN COUNT ON

The Auto-Sleeper Service Centre caters specifically for the needs of the motorhome, campervan and caravan owner. Located around the corner from the Auto-Sleeper factory in Willersey, near Evesham, Worcestershire. We offer annual habitation checks, accessories and modifications. Additionally, we can also offer motorhome, caravan and campervan repairs, accident or insurance claims.

The Service Centre technicians have many years' service with the company and are fully trained. Although specialising in Auto-Sleeper models, work can be carried out on any type of vehicle or caravan irrespective of make

but please note we are unable to undertake warranty work on other manufacturers vehicles.

The habitation check covers the motorhomes/ caravan chassis, body, fixtures, fittings and include full gas and electric system checks. Base vehicle servicing and Mot's can be arranged off site if necessary.

Dedicated to customer care, the Service Centre offers a comfortable waiting room, refreshments and mains hook-ups for an overnight stay.

AUTO-SLEEPERS PARTS DEPARTMENT

The Auto-Sleepers Parts Department aims to provide parts for Auto-Sleepers old and new. When contacting this Department, customers should have to hand the Auto-Sleepers production number of their vehicle (this can be found in the vehicle glovebox). We endeavour to provide parts for older vehicles, but are unable to guarantee to supply parts that are no longer manufactured by our suppliers.

AUTO-SLEEPERS MOTORHOME WARRANTY

You can be confident about owning an Auto-Sleeper, because we are confident about the way in which we build them. The conversion work of every Auto-Sleeper is covered by our own three year warranty* scheme plus and an additional three year water ingress warranty*. The cover is not restricted to mileage and protects all aspects of the motorhome.

*Terms and conditions apply, please refer to your handbook for further information.

FORD WARRANTY

The base of your Campervan is covered by Ford. You are covered by a 3 year or 100,000 miles warranty, distance limit applies after the first year (terms and conditions apply, please refer to the chassis manufacturers handbook for details).

Ford UK & European Roadside Assistance

Every new Ford passenger car and commercial vehicle comes with 12 months free Ford Assistance, a roadside rescue, repair, and recovery service that helps you at home or anywhere in Europe, seven days a week, 365 days a year. If your vehicle breaks down, simply call Ford Assistance on 0800 111234 in the UK or 00800 88776611 in any European country and Ford will get someone out to you as fast as they can. you'll receive:

- Friendly, skilled roadside help in the UK and Europe
- Assistance if you break down at home
- Alternative transport, replacement vehicle or overnight accommodation if your car can't be repaired on the spot
- Recovery including caravans and trailers
- Ford Roadside Assistance++ is available 24 hours a day, all year round with just one phone call.

If your vehicle breaks down, simply call them and they'll get someone out to you as fast as they can. If they're unable to fix the problem there and then, they can help you in other ways such as providing a replacement vehicle, organising costs for alternative travel to your destination or even covering hotel accommodation for you and your passengers. If you break down in Europe and they're unable to fix your vehicle, they can arrange for it to be sent to one UK address (for example: home, work, or a Ford dealer). Ford Service Assistance is available 24 hours a day, all year round, with just one phone call, wherever you are in Europe.

You can also renew this cover on completion of a Ford Scheduled Service or Convenience Check at a participating Ford Dealer. That means you'll receive UK & European Roadside Assistance valid from the date of service for 12 months, or until the next service is due, whichever comes first.

Ford Service

Ford Service Activated Assistance is one of the many benefits from Ford Service, alongside our free Ford Video Check with all service and repair work, to our all-new Express Service, where two technicians will carry out a service on your vehicle in one hour – all of which can be conveniently booked via our Online Service Booking tool.

Ford Service Assistance is available at participating dealers only for Ford cars and commercial vehicles regardless of age or mileage and is valid from the date of service for 12 months, or until the next service is due, whichever comes first. Includes European and UK mainland roadside assistance and repair and towing to a Ford Dealer - terms and conditions apply, for countries covered. Ford UK and European Roadside Assistance applies to the serviced vehicle only.

*roof down. All dimensions (shown in mm) are subject to manufacturing tolerances and refer to minimum specification models and do not include additional equipment. These illustrations are for guidance only.

The MIRO is the mass of the unladen vehicle, including an allowance for the driver (assumed 75 kg) and a 90% full fuel tank. The MIRO is calculated with the fresh water tank empty. If you travel with water in the freshwater tank then the User Payload will reduce accordingly. All masses and weights are subject to a tolerance of +/-5% complying with the European Directive 1230/2012. All motorhomes in this brochure conform to the European Standards for Motorhomes: EN1646 -1, EN 721, EN1949 and EN 1648-2. They have also been granted European Whole Vehicle Type Approval to EC Directive 2007/46. We would strongly advise against modifying vehicles in any way that could affect the validity of these Standards or Directives.

NB: It is the responsibility of the vehicle operator to ensure their vehicles are legally compliant for road use.
